JOHNSONITE TERMS AND CONDITIONS

Account Representative	<p>Brenda Ciccarello (440) 708-5860 Brenda.Ciccarello@Tarkett.com</p>
Asbestos Abatement when Installation is Handled Through Tandus Centiva's Source One Department	<p>> Neither Tarkett USA nor its installers will be responsible for the handling, removal, or abatement of asbestos contained flooring material or adhesives. > Building Owner must provide an Asbestos Hazard Emergency Response Act (AHERA) report to Tarkett USA prior to implementation by Tarkett USA of flooring preparation and/or installation of flooring material for each job. > If any chemical stripping agents such as those commonly used in asbestos abatement have been utilized, Tarkett USA and its installers may require additional measures be taken prior to installation of any flooring product.</p>
Change Orders	<p>> Any work not included in the initial scope of work will require a signed changed order before work can be performed.</p>
Deliveries	<p>> All available alternatives will be reviewed in an effort to satisfy the customer's product delivery requirements. > Tarkett USA will work with the customer to implement a plan to resolve any specific situations should they arise and to prevent delays in the future. > Tarkett USA products include delivery to a distribution hub, which are located in most areas of the continental United States. Delivery to Authorized Dealers, NJPA members job sites, or outside of the continental United States may incur additional fees. > The customer shall be responsible for any expedited freight charges requested. > On Resilient products, there will be a lift gate delivery charge (where required) of \$175.00.</p>
Floor Preparation	<p>> Additional floor preparation may be required as a result of any unforeseen condition of the floor. > Costs associated with additional floor preparation will be negotiated on a job-to-job basis. > Floors must be free of dirt, oil, paint, and excessive moisture in order for the product(s) to perform properly. See tarkettna.com for the most up to date installation instructions. > Please see Tarkett USA written instructions for guidelines on the number of test sites/data points and the allowable moisture and pH limits. > Please note the MVER, RH & Alkalinity testing must be performed to give an accurate assessment of the concrete condition and the test results/data of each test shall be within acceptable limits. > Wet or mechanical removal of all non-water based adhesives is recommended.</p>

NOTES:

Labor prices submitted are "Not-to-Exceed" for turnkey services through the Tandus Centiva / Source One® Department.

Carpet labor pricing is for projects of 500 s/y or more. Smaller projects could require additional "minimum" costs.

LVT/VCT labor pricing is for projects 1000 s/ft or more. Projects smaller than 1000 s/ft, or installations involving patterns could require additional costs.

Payment and Performance bond costs are not included in pricing.

On Turnkey projects, Tandus Centiva will invoice for material as it ships (or as phased), and labor as it completes. EA invoice is due Net 30 days after invoice date (subject to credit approval).

Tandus Centiva storage is included for 35 days without cost. Longer duration storage could be at additional costs.

Additional items and services may be available through Tandus Centiva / Source One® at competitively negotiated pricing.

The above pricing may not include all project administration and execution costs. A turnkey services fee could be added to EA project to cover the cost of administering the turnkey program.
